ebooks are sent to the email on the order. There is nothing to pick up besides a receipt!
So if it asks you a shipment method, just select "Pick up".

How does this work?
Click here!

Here is an example of what this class is using. As you can see, it automatically adds 1 qty of each option. If you do not want it, zero out the quantity.

Also be sure to read the note on the display. In this case, they are offering an (ebook) option. This is a digital version of the hard copy book. If you don't want the ebook, zero out the quantity.

If you do want an ebook and are unsure how that works, click on the box to the lower right that says (ebook) what now? There is a 2 page PDF that walks you through the process.

After you've adjusted the quantities, click on "Purchase" in the lower right.
